

Sunscreen Policy

Under the Colorado State requirements (7.702.52 D 2) children must have sunscreen applied prior to going outside to exposed skin areas every day of the school year. Therefore, children need to have sunscreen applied at home before arriving to school each day. If they are staying all day the preschool staff is required to reapply a hypoallergenic sunscreen 50 spf supplied by the school prior to going outside in the afternoon. If your child has a skin allergy you must provide an alternative sunscreen that can be left at school and labeled with your child's name.

I understand this policy and will apply sunscreen either in the morning or afternoon prior to my child's class start time:

Signature of Parent/Date

My child has an allergy and will require their own sunscreen which I will supply for the school:

Signature of Parent/Date
